The Foreign News.

The telegraph brings us a very full synopsis of the news by the steamship *Indian*, which is two days later than the advices by the *Weser* and *Borussia*. The news from the seat of war may be thus briefly summed up: No further battles had occurred, and it was thought that the Austrians would not venture to accept another battle in the present demoralized condition of their army. Peschiera was under a vigorous seige by the Sardinians, while the French troops, increased by the army corps of Prince NAPOLEON, were threatening Verona, into which place the main body of the Austrian army had retreated. The belligerent Emperors had made an exchange of prisoners. The French and Prussian armies of observation were about moving on the frontiers of the Rhine.—There was a great scarcity of provisions in the Italian villages occupied by the Allies.—Four Russian corps have been placed on a war footing, and it was rumored at Vienna that Turkey would turn against Austria.

The Commercial news is to the effect that the British markets continued dull, and breadstuffs had declined slightly. The weather being favorable for the crops, holders were pressing on the markets.

LATER.—We have one day's later news by the steamship *City of Washington*. Another battle was expected on the Adige.

The Policy of Austria.

Our readers probably noticed in yesterday's paper, under the telegraph head, coming very likely from an official source, a statement that Prussia has given positive assurances that the recent measures with regard to her military were not taken with a view to the commencement of hostilities, and that France may remain perfectly tranquil on that score. At the same time we had the information by the steamer *Borussia* that large numbers of troops continued to leave France for the seat of war, and that immense quantities of projectiles were being forwarded to the scene of action.

Thus far during the war it must be acknowledged that events have taken a somewhat different course than was generally anticipated. Shortly after the commencement of hostilities many predicted that if Austria suffered any severe reverses she would assent to a liberal settlement of the difficulties that led to the war, while others were of the opinion that Prussia and other States composing the Germanic Confederation would not see the house of Hapsburg humbled by NAPOLEON, and that they would make common cause against the common enemy, France. Such, however, has not been the case. Austria has experienced repeated and calamitous defeats; she has been compelled to give up some of her strongest positions without making an effort at defence, and yet she has given no signs intimating her readiness to accept terms of peace; and when the cloud of defeat hangs darkest over the Austrian arms Prussia comes forward—not to proffer aid to her imperial cousin, but to assure France that she has no intention of taking part in the contest.

Without stopping to enquire into the ulterior motives of NAPOLEON, it is evident that he has no idea of resting short of releasing Italy from the Austrian yoke, and so long as he is faithful to his professions in this respect, he will have the sympathy of every liberal government on the globe. The immediate result of the present war is now quite apparent. Austria cannot but be the loser. Her army has proved its incapacity to cope with the allies on the open field of battle, and the fortresses and entrenchments into which it has retreated, cannot at best hold out long against the overwhelming enthusiasm and superior skill of the French and Sardinian arms. At the present juncture, the question arises, what will Austria do? If we may judge her future course by the past, it is probable that instead of hearkening to the dictates of reason and sound policy, relying upon her physical strength, she will cling, with insane tenacity, to the hope of maintaining her domination in Italy. And what will be the result of this policy to Austria? Italy lost, her army broken down, her commerce deranged, her manufactures suspended, her treasury depleted, and many of her subjects entirely alienated from her—these will be some of the effects of the present war to Aussria, if it does not result in the entire destruction of the empire. In fact, as the London *Times* truly says, there is a period in the lives of Empires as of individuals, when the evil they have done rises up in judgment against them, and circumstances indicate that this period in the life of Austria is near at hand. Possibly what may prove to be the tomb of Austrian despotism, may turn out to be the resurrection of oppressed Hungary, dismembered Poland and down-trodden Italy.

RAILROAD MATTERS.—From the New York *Express* of Friday evening last, we take the following items:

The proposition of Mr. Newcomb Cleveland, one of the three claimants to the presidency of the La Crosse and Milwaukee Railroad Company, that each stockholder contribute fifty cents per share as a fund with which to litigate all bond and judgment creditors of the company except himself, is considered a good joke—the point of which can be even more clearly seen by inquiring into the dissolving of the injunction which restrained the foreclosure of the road by the third mortgage bondholders, the injunction being withdrawn by Cleveland himself.—*Post.*

Mr. Cleveland is reported to have transferred his judgment against the La Crosse Co. to Mr. Selah Chamberlain, the present lessee in possession, for $25,000, and the balance in notes signed by two prominent gentlemen in Milwaukee, and secured by $400,000 Minnesota bonds as collateral.

THE CROPS in this upper country give promise of a most abundant harvest—the best that has ever been gathered here; everything looks well, and we had this morning a beautiful rain, in which "the clouds dropped fatness," on our gardens and fields.—*Stevens Point Pinery, July 15.*

State Items.

DEMOCRATIC STATE CONVENTION.—HENRY D BARRON, of Pepin, is the Delegate to the Democratic State Convention from Pepin county.

A PLEASANT WAY TO PASS HOT NIGHTS.—Last Wednesday evening the wife of Mr. PEEBLES, a merchant in Waupun, wandered away from her house in that village, while in a state of derangement, and was gone all night, to the anxiety of her family and neighbors. At daybreak the village was alarmed by the church bell, and men started out in search. They soon found her, standing beside the river, near the village, looking into it abstractedly, while the rain was falling in torrents. Mrs. PEEBLES has never before shown signs of insanity, and in this instance it is thought to have been brought on by the hot weather, in connection with other circumstances.

A BRAVE WOMAN.—Mrs. THOMAS JONES, a Welsh woman, 68 years of age, was killed at the cross roads near Lake Emily, Dodge County, one day last week, in stopping a span of unruly colts, that were running away from her son. She seized them by the bridles and succeeded in arresting their progress, but in so doing was struck violently in the breast by the pole of the wagon, and trampled upon by the horses, which caused her death in a few minutes.

ILL USE OF COLD WATER.—At Fox Lake, last Saturday, Mr. THOMAS MARROW was seriously injured by drinking heavily of cold water, while perspiring freely.

THE Detroit *Advertiser* has been furnished by a citizen of Detroit, who has been on the line of the Michigan Central R. R. on a tour of observation, with the following interesting estimates of the harvest. From conversation with a number of experienced men, added to the results of his own observation, he concludes that the amount of wheat brought to market over the Central road will be at the lowest calculation, two million bushels, leaving one half million in the country for bread and seed. The station between Detroit and New Buffalo, both in the form of grain and flour, are generally considered too low:

From New Buffalo and Dayton	25,000 bu
" Buchanan	50,000
" Niles	200,000

The specimens of the new crop, sent to the *Advertiser* from various persons, are all remarkably fine.

The Kansas Constitutional Convention.

Correspondence of the Missouri Democrat.

HALL OF CONVENTION, Wyandotte,
K. T., July 11th, 1859.

The old Topeka Constitutional Convention assembled in October, 1855; the Lecompton Constitution in September, 1857. The Leavenworth Constitution was erected during the March of 1858, and now in the dog days, July, in this year of grace, '59, the fourth, or Wyandotte Constitution, is being concocted.

It would be difficult to say just what kind of a Constitution will be made. The Democratic minority is sufficiently small to relieve them from much responsibility for what is done, at the same time it is sufficiently large to give a great deal of trouble. They seem to devote themselves exclusively to manufacturing capital for the otherwise politically poverty-stricken Kansas Democracy. If "practice makes perfect," this ought to be the best Constitution made in Kansas. I think it is doubtful, however, if the Constitution will be in all respects as intelligent an instrument as that framed at Leavenworth. Both parties seem to be a little jealous of their political reputation, and if the prevailing fashion of doing nothing so as to keep a good character, obtains, we will have a specimen of the "show them how not to do it."

I understand that the Committee on Judiciary, on which there is nearly an equal portion of Democrats with Republicans, have agreed on their report without difficulty. It will be so with many of their reports. The debates will occur on a few questions. The rights of slave owners in the Territory, Woman's Rights, Apportionment, Boundaries; and beside these we expect the African Democracy will give us niggers fried, niggers boiled, and niggers roasted, and that the discussions on these will be numerous, tremendous, and patriotic.

The two persons who claimed seats from Morris and Chase were kept out. They had gone before the people in their own district, and been defeated, and as they had a majority in one county out of the four, they modestly asked seats. The African Democracy, willing to take up with any disaffected person, took them up, and stood up for them, on the ground of regarding the rights of the "people" over the iron rule of "legality." It was amusing to hear those who have denounced "Topekaism" for being "illegal," &c., taking the broad ground that the "people alone give power to a Convention"; that the law gives a Constitutional movement no "legality"; that "the people, in their primary capacity," are "entirely adequate to the task of assuming the responsibility of the State Government."

Those who remember the denunciations on the heads of the "rebellious Topekaites;" who remember Federal armies being brought against them by modern Democracy; who remember the imprisonment of those concerned in the movement of a Free State government, will be forcibly struck by the progress of modern Democracy. The doctrine may be a very good one, but if it is the changing front of the Administration forces on it, 'tis remarkable.

Several of the Nebraska delegates have appeared. Their cases have been reported, and referred to the appropriate Committee. When action is taken on them, these delegates will likely be admitted to honorary seats, with the privilege of speaking on the boundary question. A good deal of feeling exists with a few on this matter. A few parties thinking it may affect the capital question and suit them, are in favor of the annexation, but the general sentiment is against it. It is regarded as politically dangerous. The people of the Territory know each other, and although young, the Territory has a past history. Again, it is more than suspected that the chief animus of the scheme is to make a connection of railroad, which shall be a "Kansas road," up the Platte Valley, and from Chicago to Nebraska City, or some other point on the Missouri river in Nebraska, thus cutting off, or trying to cut off, the central route by the valley of the Kansas river.

The committees organized last week, and most of them have their reports nearly ready. The Convention is engaged this afternoon in Committee of the Whole on the report of corporations. As corporations have not souls, it is to be inferred that reports on corporations are not in a much better predicament, so I will not attempt to inflict the discussion or refer to all the amendments.

The exercises are rather dry for a Kansas Convention. Democrats and Republicans vote and amend promiscuously amongst each other. One Democrat, indeed, was hardy enough to take the ground that no bank should be permitted. He said, "The history of banking in this country is one of distress and fraud and ruin. It is a temptation to cheating." This, with a good many other platitudes emanated from the gentleman, but did not seem to get up a tempest even in the Democratic bosom. Several Republicans seemed to entertain similar views, but the "entire anti-bank system" is not likely to be developed on this occasion. KAW.

COMMERCE OF ENGLAND IN MAY.—The British trade and navigation returns for May, exhibit manifestly the depression which the political disturbance of Europe has caused to commerce. The ploughshare has sunk before the sword; the arts of peace retire before the stormy advance of war. The decline in the value of *imports* for the month was, in round numbers, $11,500,000, and the *exports* have fallen off nearly $10,000,000, as compared with May, 1858, although the total for the four months of the year, still maintains an ascendancy of about $10,000,000 over those of the same period of 1857, and of $45,000,000 over 1858.

June is not likely to show any improvement over the figures of May.

THE SUCCESS OF THE TRADE SALES THUS FAR.—We believe we express the opinion of both buyers and manufacturers in stating, that thus far, the Trade Sales have been quite as successful as the most sanguine of our citizens expected. As usual, at such times, there were some persons who predicted a failure; but they have been disappointed.—The number of buyers have been much larger than was expected, and merchants are here from almost every important city from the Pacific to the Atlantic, including San Francisco, New Orleans, &c.

The Boot and Shoe Sale opened remarkably well; and as our reporter stated, there were present from three to five hundred persons at all times, and there could not have been less than a thousand buyers in attendance, at different times during the day. The auctioneer, Mr. Townsend, sold the entire day, and showed himself one of the most skillful men in his line that ever used the hammer. The prices brought were generally good, and in many instances, they ranged so high that the goods were duplicated by the manufacturers. The sale will commence this morning at 9 o'clock, and will continue until the invoices shall be finished.

The sale of Glass Ware was entirely successful, so far as purchasers were concerned, and the prices were generally satisfactory; but the amount of goods invoiced was comparatively small. It may not be generally known that the manufacturers of glass ware have been in the habit of holding a semi-annual trade sale in Boston, and that therefore they were not prepared at this time to make up so large invoices as they would under other circumstances. The sale yesterday closed with a small invoice of the Suffolk Glass Company, and the amount of the whole, including the Bay State, Cape Cod, New England, Boston and Sandwich, Suffolk and Gleason's sale of plated ware, could not have exceeded $70,000. At the last semi-annual sale the amount of goods invoiced was about four times as much as all the above named companies had on sale yesterday. Col. Hatch performed his part in a most admirable manner, and despatched the business with wonderful rapidity.

The sales of boots and shoes will probably amount to about $500,000.—*Boston Traveller, 14th.*

TRAVEL ON THE IMPROVEMENT.—Times have been hard in Wisconsin the present season, partially on account of unwise State Legislation and mainly because of the failure of the wheat crop in 1858. We have not escaped the stringencies of the money market in the River Valley, and yet there is one thing very significant.

We find by an examination of the Books of the Fox & Wisconsin Improvement Company that there is *an actual increase of travel on the steamers upon the Lower Fox*, during the quarter ending July 1, 1859, as compared with the same time in 1858, of a trifle *over fifteen per cent.*

Another significant fact: While, as is well known, emigration to the west has been exceedingly limited, the books of the Company show a wonderful increase in the quantity of household furniture carried up Fox River.—This shows conclusively that notwithstanding the hard times and little general emigration, this portion of the State is settling quite rapidly.—*Appleton Crescent, July 15th.*

GOOD FOR DANE COUNTY SOIL AND ONE OF ITS CULTIVATORS.—We met W. B. Bird, of the town of Madison, to-day, and he expresses himself well satisfied with his prospects of good crops. He has already commenced harvesting his barley, and came across six heads which had grown from one kernel, and from one of the heads he counted out eighty-four kernels. This shows well for Dane County soil, and the strong probability of its cultivators having an abundance of good conditioned cereals to dispose of.—*Madison Patriot, July 16.*

THE CITY.

Cooper's Opera Troupe.

This Opera troupe made their first appearance in our city last evening. The extreme heat of the weather kept many of our music-loving citizens away, but those who attended were highly pleased with the entertainment. The company, though a small one, is skillfully made up, and the leading parts are sustained by really good artists. The violin and piano accompaniment was excellent. Miss MILNER, who sang the solo of Amina, acquitted herself remarkably well, and was heartily applauded. Mr. BOWLER and Mr. RUDOLPHSEN, the Elvino and Count Rodolpho of the evening, did justice to their respective characters.

To-night, the favorite opera, *Trovatore*, will be performed. We assure those of our readers who enjoy operatic music, that it is a real treat to hear Mr. COOPER's company.

THE OTHER TACK.—Now that our *locale* of the *Wisconsin* has taken the other tack in the Milwaukee matters, let us advise him not to stretch too long on it. The poison was bad enough, do not kill us with the antidote. The noxious article very probably was the result of some misunderstanding between the foreman, the clerk and the locale, for it is reasonable to suppose that a paper in such a triangular position should suffer somewhat from a lack of unity. We say again to the *Wisconsin*, don't kill yourself with the *cure*, or we may be called upon to cry with SOCRATES—we owe a cock (not to ESCULAPIUS) but to POTTER.

It is not our intention to kick a man when he is down; far from it; but we saw CORUS reading the *Wisconsim* last evening and his conduct reminded us of that verse in what COLERIDGE calls the "fine old ballad of Sir Patrick Spence:"

"The first line that Sir Patrick read
A loud laugh laughed he,
The next line that Sir Patrick read,
The teir blinded his 'ee."

ANNIVERSARY OF THE LIGHT GUARDS.—The Milwaukee Light Guards celebrated their fourth anniversary, on Saturday last, by a parade and target excursion. Notwithstanding the intense heat, the company turned out strong, preceded by the Cornet Band and their own drum corps. They looked remarkably well as they marched through the streets, and were reviewed in front of the Newhall House by Major-General HATHAWAY. After the review, they marched out to the residence of Lieut. GEO. B. BINGHAM, there they passed the day most delightfully. A large number of ladies and gentlemen accompanied them, and all were made to feel at home at the hospitable mansion of Lieut. BINGHAM. The firing at the target occupied some two hours, and when it was over a capital dinner was served up, to which ample justice was done by all present. A number of sentiments were offered and speeches made, which called forth very hearty applauses. Late in the evening the Company returned to town highly delighted with their excursion. It was in all respects a successful affair.

DEATH OF A VETERAN ACTOR.—We are pained to learn that Mr. WILLIAM F. JOHNSON, who has resided in our city for two or three years past, and during the last winter was Manager of the Theatre in Young's Block, died last evening at the Hospital of the Sisters of Charity. Mr. JOHNSON had long been subject to severe rheumatic attacks, but until within a week, or so, was not thought to be seriously ill. The announcement of his death will grieve a large number of friends, here and elsewhere. He occupied a high rank in his profession, and his fund of anecdote, lively conversation and genial manners made him a favorite in the social circle. His funeral will take place this afternoon from the residence of RALPH JOHNSON, Esq.

NEW DEMOCRATIC PAPER.—We understand that a new Democratic daily paper is about to be started in this city. It will be an Administration organ, in opposition to the *News*, which sails, at present, under the DOUGLAS flag. The proprietors have had considerable experience in the newspaper business. The Madison *Journal* says that Mr. E. A. CALKINS, late of the Madison *Argus & Democrat*, is to have the editorial charge of the new paper. If so, he will make it a spicy sheet.

Five Persons Drowned.

Saturday night WM. ANDREE and PETER HAUBERT entered the lake this side of the North Point to bathe; in crossing the deep water between the shore and the bar, they were drowned. HAUBERT was about 21 years of age, unmarried, and a brother of JOSEPH HAUBERT, who keeps a harness and trunk shop on Wisconsin street. ANDREE was about 19, unmarried, and was a clerk in the store of Mr. PHILLIPS, in Chestnut street.—Both were of German birth.

The same evening MARTIN McDERMOTT, an Irishman, lost his life in the canal, near the La Crosse depot. He also was bathing, and though unable to swim, had been induced by the heat of the day to take this pleasant method of refreshing himself, when he met with his death. Mr. McDERMOTT leaves behind him a wife and three children.

TWO CHILDREN DROWNED.

Sunday, a little after noon, a small boy (name not known) fell into the river, this side of Chestnut street bridge, and was drowned before assistance could be had.

Sunday evening a little girl, five years old, fell in a tank of water, in the Ninth Ward, and was suffocated.

The bodies of the entire five were recovered.

MUNICIPAL COURT—JUDGE FOOTE PRESIDING.—Monday, July 18.—F. L. Auer, drunk, fined $1 and cost.

John Kern, drunk, fined $1.

Thomas Mogher, violating bridge ordinance, fined $1.

Johanna Lindsauer, vagrancy, fined $10.—Allowed to leave the city.

Wm. Meadows, disorderly, penalty and cost, $7,45.

John Davis, disorderly, penalty and costs, $3,93.

Wm. Saurteig, disorderly, penalty and costs, $3,90.

Frederick Schlatter, assault and battery. The parties afterward came into court, and offered to settle the case, which they were allowed to do, by defendant paying costs.

G. A. Jessel, violating ordinance relating to auctions, found not guilty.

Frederick Reinebecke, disorderly, discharged.

State vs. F. A. Lynde, passing a bogus check, discharged.

THE GREAT EXCURSION TO THE FALLS OF MINNEHAHA.—The excursion of the Sons of Malta to the Falls of Minnehaha, Minn., will leave this city on Thursday morning, and meet the excursionists from Chicago at Milton. It will probably be one of the greatest excursions of the age, and will be participated in by people from all parts of the Western country. Although originated and planned by the Sons of Malta, it is not proposed to make membership in the Order a condition of taking part in the excursion, and all their friends, whether members or not, are invited to unite with them.

Tickets to St. Paul and back, for the occasion will be furnished by the Milwaukee & Mississippi Railroad at half the usual fare, or nine dollars.

NOTWITHSTANDING the warm weather, the Churches were well attended Sunday morning. Bishop AMES delivered an excellent discourse at the Summerfield Church. Rev. J. M. BUCHANAN's congregation was as large as usual and listened to a superior doctrinal sermon on Grace.

In the evening the Rev. Dr. DYPER delivered a lecture before the Young Men's Christian Association, at his Church. His subject was, "Science and Revelation, or Moses and the Geologists." In the course of his remarks he endeavored to disprove the theories of the scientific world and establish the Mosaic account of the creation of the world in six days—in its literal reading.

The lecture was an able one, though very open to criticism, and was listened to with deep attention by a large congregation.

MILWAUKEE FEMALE COLLEGE COMMENCEMENT.—The Commencement exercises of the Milwaukee Female College, will take place on Tuesday and Wednesday, July 19th and 20th.

Tuesday morning will be devoted to recitations in Geography, Arithmetic, Zoology, Latin and Mental Science.

Tuesday afternoon, Astronomy and Butler's Analogy.

Wednesday morning, Compositions of the Senior Class.

Wednesday afternoon, Prize Essays, Valedictory, and an address by Prof. BARTLETT, of the Chicago Theological Seminary.

A HEATED TERM.—We have had a week of very hot weather; the mercury ranging from 90 to 96 degrees above zero at 2 P. M., for six days consecutively. Yesterday, a fine thunder shower at noon cooled the air somewhat, though it was sufficiently torrid at nightfall.

TURNER FESTIVAL.—Sunday the Turners had a festival at the "Menomonee Gardens," and enjoyed themselves in gymnastic feats, until the rain interfered. The prizes which were to have been distributed, will be given next Sunday, at the same place, when the festival will be continued.

FOR OGDENSBURGH AND THE EAST.—The screw steamer *Wisconsin* leaves this morning at 10 o'clock, for Ogdensburgh and intermediate ports. For passage apply at the company's office, foot of East Water street, J GRIFFIN & Co., Agents.

MESSRS. BAMFORD & BALDWIN, at the M. & M. R. R. depot are gaining notoriety both by their enterprise and indomitable zeal. If there is anything in the news line not to be had of these gentlemen that can be had anywhere else, we should be happy to hear of it.

FOR COLLINGWOOD AND THE EAST.—The splendid upper cabin steamer *Hunter*, Capt. DIXON, will leave DOUSMAN & Co.'s dock to-morrow morning at 9 o'clock. For passage apply at the Company's office, No. 70 East Water street.

THE BOARD OF ALDERMEN met last evening, Ald. WEST in the chair; six members being present. The resolution of the Board of Councillors to issue warrants to CHASE & Son, concurred in.

The resolutions to furnish the police with suitable numbers, to remove the stands from the north half of Division street were also concurred in.

The resolution of Councillor ROSEBECK relative to the remission of fines for licensing was laid on the table.

An ordinance regulating interments in the Eighth Ward, adopted.

The resolution to pay the annual sum of $50 to the several fire companies was concurred in after being amended to exclude No. Eight.

AT A MEETING of the members of Milwaukee Engine Co. No. 1, held at their Hall Friday evening, July 15th, A. D. 1859, the following resolutions were unanimously adopted:

Whereas, The members of Milwaukee Engine Co. No. 1 have been placed under obligations to several of our citizens, for courtesies extended to them on several occasions; and, whereas, they have had no opportunity to reciprocate for such favors, and hope they will never be called upon, in their official capacity, to lend a helping hand to any of their friends; therefore,

Resolved, That we hereby extend our most heartfelt thanks to the United States Insurance Company of Milwaukee, Capt. A. H. Gardiner, Lieut. A. B. Chapin, of the Milwaukee Light Guard, J. A. Helfenstein, S. S. Daggett, and many others, for courtesies extended to us, and should any calamity offer, we shall ever hold ourselves in readiness to repay with interest.

Resolved, That the Milwaukee Engine Library Association [illegible] express their gratification as recipients of several donations to the Library from Mr. L. Blake, and others, and hereby tender their humble thanks to the above gents for such favors. They will read and endeavor to profit by the perusal of those volumes.

Resolved, That the above be published in the daily papers of this city.
P. VAN VECHTEN, Foreman.
F. F. ADAMS, Secretary.

YESTERDAY afternoon the windows of heaven were opened, and the floods descended in the most refreshing manner. After the shower the air was sensibly purified and folks generally breathed freer.

MARRIED:

At the Church of the Atonement, in Chicago, on the 13th inst., by the Rector, Rev. Mr. DIMON, Miss MARY LESLIE, of St. Louis, and the Hon. MARCUS W. McCRACKEN, of Bayfield, Wisconsin.

DIED:

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

One Day Later from Europe.

FARTHER POINT, July 17—3 P. M.

The steamship Indian, from Liverpool, with dates to the 6th inst., has passed the Point on her way to Quebec. The North Britain, from Quebec, had arrived out.

The latest intelligence from the seat of war states that no farther battles had occurred.

The French troops were threatening Verona.

The Liverpool breadstuff market exhibits a declining tendency, all descriptions being lower than previous quotations.

The weather was favorable for the crops.

Flour was very dull, and all qualities had declined. Wheat was also very dull, and had declined 1da2d.

On the 5th consols were 93 1-4 to 93 1-2.

The head quarters of the French army is only four leagues from Peschiera, which place is under a vigorous siege by the Sardinians. The report of cannon is heard night and day in that direction.

The Austrian advanced post is but a short distance from Villa Franca, which is occupied by the troops of Marshal Neil.

It is much doubted whether the Austrians will venture to accept a battle in the present demoralized condition of their army.

TURIN, July 4.—It is rumored that 10,000 French troops have disembarked at Lossia and Piccola, on the Adriatic, and that the bridge to Cherso has been destroyed.

VALLEGIO, July 4—OFFICIAL.—The French army increased by the army corps.—Prince Napoleon will operate against Verona, whilst a portion of the Sardinian army will continue the seige operations at Peschiera.—The Emperor Napoleon having sent back the wounded Austrian officers without exchange, and having requested an exchange of other prisoners, an Austrian officer has arrived with the announcement that the Emperor of Austria will also send back, without exchange, the wounded officers taken from the allies, and that his Majesty is equally desirous for an exchange of other prisoners.

TURIN, July 4—OFFICIAL.—The Sardinians have invested more closely the exterior of Peschiera, on the right bank of the Mincio, and on the 30th ult. our army crossed the river to invest Peschiera, also on the left bank.

BERNE, July 5.—The Austrians have withdrawn from Bormie.

The Piedmontese are advancing towards the Stelvio Pass.

It is rumored at Castiglione that the Austrians have retired into Verona.

The Turin correspondent of the London *Herald* says that 20,000 troops have been ordered from Milan, to Brescia, and 10,000 from Turin.

There are great complaints of the scarcity of provisions in the villages occupied by the allies.

PARIS, July 5.—The official condemnation by the French Government of the article in the Paris *Patrie*, affirms that respect for Papacy forms a part of the programme which the Emperor Napoleon is carrying out.

The Moniteur de Bologna publishes a letter from Count Cavour, to the Junta of Bologna, saying that King Victor Emanuel would not accept the Union Romagna, with Piedmont, but will direct the Roman forces to concur, for the purpose of obtaining Italian independence.

Gen. Pellissier's corps, to observe the frontiers of the Rhine, will be in cantonments by the 13th inst. It will comprise 160,000 infantry, 12,000 cavalry, and 4,000 cannon.

FRANKFORT, July 4.—At an extraordinary sitting of the German Diet to-day, Prussia presented new and further proposals, respecting the command-in-chief of the corps of observation on the Rhine. Immediately after the close of the sitting, M. De Usedon left for Berlin.

The Berlin correspondent of the London Times says that Prussia's new proposals are in the hands of the representatives of Russia and England. Also that in a week the Prussian army will be in full march. Two corps d'armee will be stationed on the Silesian frontier to guard against Russia; on the lower and middle Rhine 140,000 will be stationed, and when all her preparations are completed, Prussia will probably make her proposals to France, which will undoubtedly be refused.

The London Times' Vienna correspondent says that something unusual is going on between France and Russia and he would not be surprised if Turkey was to turn against Austria. Four Russian corps are already on a war footing, and the officers on limited leave have been ordered to join a levy of recruits.

COCHIN CHINA.—The French troops have defeated the army of outlaws, and captured a fort mounting 20 guns. The loss of the enemy was 500, and the French had 14 killed and 30 wounded. The leaders of the mutiny have been defeated and dispersed at Hong Kong.

ENGLAND.—Lord Lyndhurst made a speech in the House of Lords, strongly advocating vigorous measures of defence, both on sea and land. He regarded the assertion that France had no wish to invade England as undeserving of consideration. England might live in perfect independence of French forbearance, relying only on the vigor of her people.

The Fourth of July Banquet took place at St. James' Hall, London. Consul Campbell presided. Much enthusiasm prevailed, and the usual toasts were drank.

Mr. Dallas, the American Minister, made a speech, in which he compared the position of Italy to that of the U. S. in 1776, and expressed a warm sympathy with the spirit of national independence wherever it may be, and he proposed a sentiment to the same effect.

Later from California.

ST. LOUIS, July 16.

The overland mail of the 24th ult., has arrived. The Lecomptonites had nominated Milton S. Latham for Governor, J. C. Downey Lieut. Gov., John C. Burch for Congress from the Northern District.

Rich discoveries of gold had been made in the coast range of mountains in Humboldt Co.

OREGON.—Advices state that the Columbia and Williamette rivers were very high, causing great destruction of property.

Business was extremely dull owing to the non-arrival of several clippers overdue.

Harvesting was progressing, and the yield promised to be more than sufficient for home use.

A despatch from San Francisco to Gilroy, several hours later than the departure of the mail, furnishes three days later advices from British Columbia.

Frazer River had risen 12 feet in four days at Ft. Yale. All the houses on the beach were overflowed, and several swept away.

Mining operations were entirely suspended.

Coal has been discovered near Queensborough.

Gov. Douglas and Col. Moody had made a trip north of the entrance of Frazer River.—They found fine tracts of land.

The steamer Torwood brought down $7,500 in gold.

Columbia River was 45 feet above low water mark, between the Cascades and the Dalles. The whole country, from the Cascades to Van Couver's, was submerged.—There were not 20 acres above water.

Attorney-General Black on the Expatriation Question.

WASHINGTON, July 17—3 P. M.

Previous to the preparation of the recent official letter to our Minister at Berlin, instructing him to demand of the Hanoverian government, the surrender of Mr. Ernst, Attorney-General Black, at the request of the President, rendered an opinion in the case, maintaining the general right of expatriation as incontestible, and that in regard to the protection of our citizens in their rights at home and abroad, we have no law which divides them into classes or makes any difference whatever between them; that a native and a naturalized citizen may therefore go forth with equal security, over every sea and through every land under heaven, including the country in which the latter was born.—Either of them may be taken for a debt contracted or a crime committed by him, but both are absolutely free from all political obligations to every country but their own; they are both American citizens, and their exclusive allegiance is due to the government of the United States. In Judge Black's opinion, the Hanoverian government cannot justify the arrest of Ernst by showing that he emigrated contrary to the laws of that country, unless it can also be proved that the original right of expatriation depends on the consent of the natural sovereign, and this last proposition he is sure no man can establish.

Kansas Constitutional Convention.

ST. LOUIS, July 16.

A special despatch to the *Bulletin* says that after a lengthy discussion, disclosing much wire-pulling and manœuvering by both parties, the Kansas Convention has to-day fixed as the Northern boundary of the State the original Nebraska line.

From Mexico.

NEW ORLEANS, July 17—3 P. M.

The latest dates from Vera Cruz are to the 13th inst. The British steamer *Leviot* sailed on the 4th inst. with $2,250,000 in specie. The Revolutionists in Yucatan quietly dispersed after the capture of Ex-Governor Beroira.

President Miramau had proposed issuing a forced paper currency amounting to $18,000,000, and was also about raising a forced loan from all natives, ranging from $1 to $500 each.

President Juarez has published a political manifesto confiscating the Church's secular property. President Juarez's Minister of Finance is a passenger, who comes to negotiate a loan on the Church.

Teica has been captured by the Liberals.

Several vessels have been lost on the coast of Taspan and Ticohitta during a violent hurricane. The French bark *Annapue* has been lost off Tampico.

The manifesto issued by President Juarez prohibits the clergy from holding office, throwing them on the voluntary support of the laity; abolishes internal custom houses and internal taxation.

LATEST NEWS!

BY LAST NIGHT'S REPORT

ONE DAY LATER!

Arrival of the City of Washington.

NEW YORK, July 16—9 P. M.

The steamship *City of Washington* arrived at this port this P. M. with London and Liverpool telegraphic advices to the 7th inst. She stopped at Cork.

The next battle between the Austrians and Allies it was expected would take place on the river Adige.

It was reported that the British Mail Steamers had been requested, by the Government, to prepare to carry armament.

Ancona was declared in a state of seige.

LIVERPOOL, July 17.—Breadstuffs generally dull, and the quotations nominal. Corn is steady, and there is an increased demand for yellow. Provisions generally dull. Produce unchanged.

Latest by telegraph from London to Queenstown:

LONDON, July 17.—The Paris correspondent of the London Times says the Minister of War, Marshal Pellissier, have had another conference for the purpose of concocting measures to complete the army of the East.

An Eighth division is in course of organization at Lyons to reinforce the army of Italy.

Telegram from Trieste dated to-day, says advices from the 8th ult. announces that legal proceedings have been taken against a secret society at Messina, and several arrests had been made.

Advices have also been received from Ancona to the 25th of June.

Gen. Cottermather had taken command of the town and declared it in a state of siege. A general disarming of the citizens had been ordered.

An address of the Sardinian Admiral to the people of Messina had been published.

The Paris correspondent of the London Times says that letters from the head-quarters of Prince Napoleon state that another great battle was expected to take place on the Adige.

The Austrians are believed to have 200,000 men in the line.

A fresh battalion was organizing at Paris.

The *Times* also says that the Austrians will act only on the offensive. Reliable information had reached Vienna that Garibaldi's men had violated Tyrol by entering the Tonato pass.

Prince Windischgratz has been sent to Berlin to acquaint the Prussian Government with this fact. But such an armed mediation constitutes a part of the ultimatum. Is not France entitled to reply that the condition of peace ought to be proposed by all the great powers conjointly, and not by Prussia alone, and that such an armed mediation made by a single power is equivalent to a declaration of war: but when to obtain the Austrian possessions in Italy; a German army of a million men shall be put in motion to attack France; can the Palmerston-Russell administration remain indifferent spectators of a new confederation?

The English ministry will most certrinly not allow a new war to begin without exhausting all its power of persuasion.

FRANKFORT, July 6.—It is stated that the proposals made by Prussia on the extraordinary sitting of the Federal Diet, on the 4th, were as follows:

1st. The junction of the 9th and other corps d'armee to the Prussian army.

2d. No appointment to command from the Prussian or Austrian corps d'armee.

3d. The placing of all the reserve contingent force in readiness to march.

BERNE, July 6.—News has been received from Carmio, that a corps of 3000 to 5000 Tyrolese chasseurs had been threatening the Vatteline, but several columns of Garibaldi's and Chalden's corps had repulsed them from Odessa and driven them as far as the 1st Canton of the Stelvia.

A Frankfort letter announces that the Austrian Government have been compelled by the battle of Solferino to despatch to the seat of war troops, which it had held in reserve in the Tyrol, that province being consequently menaced.

Kossuth has issued a proclamation to the Hungarians. The proclamation called the Hungarian nation to arms to struggle for liberty, and announced that he will soon be with them.

The *Invalide Russe* discusses the possible complications of the war. Prussia, it says, has called out an army 300,000 men, which will be re-inforced by the federal contingent of 150,000 men, and it is with such an enormous display of force that she proposes to offer her mediation to France, and to hasten the conclusion of peace.

Important from Mexico.

NEW ORLEANS, July 18—9 P. M.

Advices from Tampico, to 2d July, say the organization of the liberal forces in northern Mexico is broken up. The Miramonists are acting with renewed vigor, and are not only threatening Potosi, but an expedition of 5,000 strong against Tampico, is being organized under Gen. Moreno. Artillery, men and ammunition have been received at Tampico from Vera Cruz; large quantities of powder had been received from Orleans.

Washington Matters.

WASHINGTON, July 16—9 P. M.

The President, accompanied by Mrs. Secretary Thompson and Miss Lane left this p. m. for Bedford Springs.

Gen. Cullom who is under indictment for for an alleged malfeasance while Clerk of the House of Representatives to-day demanded trial in the Criminal Court, but was postponed till the next term, owing to the absence of a material witness for the U. S.

FRENCH PRUNES.—A PRIME LOT FOR sale by EDWARD TRUSLOW, 119 East Water st.

THE SENTINEL.

OFFICIAL PAPER OF THE COUNTY.

RUFUS KING, Editor.

TUESDAY MORNING, JULY 19, 1859.

Republican State Convention.

A Republican State Convention will be held at the City of Madison, in the Assembly Hall of the Capitol on Wednesday, the 31st day of August next, at 12 o'clock M., for the purpose of nominating candidates for State officers to be supported by the party at the ensuing general election; and to transact any other business that may properly come before it.

As the subject of selecting delegates to the next National Convention may be entertained and acted on by the Convention, it is suggested that the people in their primary caucuses, and the district conventions make such expression as will intimate to their delegates and the State Convention, the general sentiment of the State on that subject.

Each Assembly District will be entitled to two delegates in the Convention.

It is recommended that District Conventions for the selection of delegates be held throughout the State, on or before the 29th day of August, and that committees make early calls for that purpose; and it is especially urged that every district be duly represented in the Convention.

Political Intelligence.

"Occasional," the Washington correspondent of the Philadelphia *Press*, writes under date of July 13, that Hon. T. A. Hendricks, Commissioner of the General Land Office, is a candidate for Governor of Indiana, and intends starting for home in a few days, to canvass for the nomination. The same correspondent also states that Judge Douglas is now in that city, preparing another manifesto on the Territorial question, which, it is said, will shortly see the light of day, and will be far ahead of anything that has yet emanated from his prolific brain.

This "manifesto," we presume, is to be in explanation of the brief, but significant letter in which Senator Douglas announced the conditions upon which alone he would consent to accept the Charleston nomination. The tone of that letter has given great offence to the Administration men of the North and the slavery propagandists at the South. It was a false move on the part of Senator Douglas, and he perceives the necessity of correcting his error by issuing a "manifesto." Too much letter-writing may, however, damage his Presidential prospects as seriously as it has done those of other ambitious aspirants.

The Tyrol.—It would appear from the European papers that the Austrians are fearful that the neutrality of Switzerland will be violated, the Tyrol invaded, and their communications with Northern Germany cut off. Otherwise it is impossible to explain why they are fortifying and garrisoning Nauders (not Nanders, as spelt in some of our papers.) This village of Nauders, and the contiguous Naudersburg, are in the Tyrol, near the Inn, and upon the Swiss frontier, and occupy an important strategical position. Here the road from Innspruck to Milan bifurcates. The western road follows and ascends the Inn, passes through St. Moritz at the junction of the Juliers (from Coire,) and Molloya, or Malloja, (from Chiavenna) passes and reunites upon the shores of Lake Como with the eastern road, which runs by Glurns, through the Stelvio Pass, descends thence along the Adda, through Borneo and Firano to the lake. At Mals, near Glurns, the eastern road bifurcates also. The western branch has been described as taking the Valley of the Adda; the eastern goes through Bolzano and Trent to Verona. Thus the position at Nauders actually commands the passage of five roads between Germany and Italy, and stands on the direct routes from Baden, Wurtemburg, Bavaria and Bohemia.

Why the Austrians should have desired to blow up the Devil's Bridge, (as stated last week) which is in the heart of Switzerland, and on the famous St. Gotthard road, is incomprehensible, and it is more incredible that the Swill permitted such a vandal outrage.

The American Express Company.—The Syracuse *Journal*, in an extended notice of the history of this company, in which a deserved compliment is paid to Henry Wells, Esq., who was the pioneer in the business in New York, says: "The route of the American Express Company extends through the States of Pennsylvania, Ohio, Indiana, Illinois, Wisconsin, Iowa, Minnesota, Kentucky, and Missouri, and all of Canada West besides the settled portions of the new territories. They amount in the aggregate to between four and five thousand miles. They have over six hundred offices, and give employment to about three thousand men, and two hundred horses. The amount of freight transported during the past year was over eight thousand tons; of money, during the same period they carried above one thousand millions of dollars. And this vast sum passed through the hands of the various clerks, messengers, &c., without the loss of a dollar, a fact that speaks well for the characters of their employees; while it testifies to the admirable system that prevails in their business, by which every package can be traced to its delivery in the hands of the owner, years hence, if necessary."

The Emigration Across the Plains.—Mr. James C. Mitchell, Secretary of the Columbus Ferry Company across Loup Fork, informs the Omaha *Nebraskian* that up to June 25th, 1,807 wagons, twenty hand-carts, 5,401 men, 424 women, 480 children, 1,610 horses, 406 mules, 6,010 oxen, and 6,000 sheep, had crossed the ferry at that point.—This statement includes no portion of the Mormon emigration, but embraces merely California, Oregon and Pike's Peak emigrants and their stocks, all going westward. The returning emigration crossed at Shinn's Ferry, some fifteen miles below the confluence of the Loup Fork with the Platte. Many of the outward bound emigrants also crossed at the same point, so that it is probable that not less than four thousand wagons have passed over the military road westward from this city, since the 20th of March. It is more than probable that another year the number passing up the Platte Valley will be ten times as great.

American Troops for Mexico.—It is stated in the New York papers that the American Brigade for Mexico, is now nearly completed, and will probably be ready for motion in about two months.

Two Regiments are to be raised in New York and one in California. J. H. Hobart Ward, Ex-Commissary General of New York, will be Colonel of the New York Regiments.

The whole force will be under the command of Brigadier-General Wheat, and will start from New York city and San Francisco simultaneously, to meet at a point in Mexico, fully prepared to sustain Juarez.

The Ultimatum.—The Richmond *Enquirer* assures the Lynchburg *Republican* that if the Charleston Convention shall reject the doctrine of the power and duty of the General Government to enact a Slave Code for the Territories, "we regard it as much more than probable that the conservative democracy, not only of Virginia, but of the South, and of the whole Union, will refuse to vote for the nominee of the Charleston Convention."

Railroad Bonds.—In a recent publication on the railroads of the United States, it is stated that there falls due up to 1890, or in thirty years, $411,199,702 of railway bonds; of this $97,430,000 is already delinquent on the interest. $9,163,173 falls due this year, including the $4,000,000 Erie bonds. Next year $21,282,876 falls due; Illinois freeland, $3,000,000; Hudson River, $2,000,000; Reading, $3,500,000; the Michigan roads, $2,500,000, &c.

The Iron Steam Ram.—The London *Times* gives a long description of the new iron steam ram, which, it says, will be afloat next June. Her total length will be 380 feet, breadth 58; total weight at sea about 9,000 tons; full speed 16 miles an hour.—About 220 feet of the broadside of the vessel will be of teak, 24 inches thick: this will be covered with armor plates 4 1-2 inches thick on the deck. The ram will be armed with 35 Armstrong guns, each throwing 100 lb. shot over a range of six miles. The ram will run down ships by driving at them at full speed. If she only does one-half of what may fairly be anticipated from her, she will be cheaper to the nation than a dozen sail-of-the-line. The cost of the hull will be about £200,000, the engines about £75,000, and her fitting for sea about £45,000 more, or £320,000 in all.

Street Railroad Travel in Philadelphia.

The Philadelphia *Bulletin*, in the following article, shows how the street railroads in that city operate. It says:

There are ten different horse railroads for carrying passengers now in operation in Philadelphia, covering a distance probably of one hundred miles of single track. The number of cars is over three hundred, and the number of horses must be a couple of thousand. The men employed by them, in all capacities, amount to about one thousand. The fourth of July was a great day on these roads. The amount of money received on all of them on that day, was $8,787. This presents a total of 175,740 passengers at full five cents fare. The operations of each road are shown by the following statement, which we have obtained from official sources:

	Cars.	Receipts.	Fare at 5 cents
Second and Third	57	$1,564	31,280
Fifth and Sixth	50	1,340	26,800
Fourth and Eighth	38	1,050	21,000
Tenth and Eleventh	37	1,015	20,000
Race and Vine	26	780	15,600
Arch Street	16	370	7,100
Ridge Avenue	19	290	5,800
Girard College	19	594	11,880
Market Street	85	1,000	20,000
Spruce and Pine	16	459	9,180
Darby Road	9	325	6,500
Total	372	$8,787	175,740

These figures are surprising, but they do not tell all; for many persons got exchange tickets at six or eight cents, which carried them over two roads, and, besides, there are a great many persons on the free list. So that it is estimated that the actual number of individual trips made was not less than two hundred thousand. This represents nearly one-third of the population of the city of Philadelphia, men, women and children, the old and disabled, the invalids and the children in arms. With such a result in a single day, who will say that city railroads are not a great public blessing? In the days when omnibusses were the only public vehicles for traveling at a cheap rate in the city, the number of passengers on a great holiday could scarcely have amounted to one-sixth of the travel by the city railway cars on Monday last.

Slave Cargoes Landed in Florida.

Correspondence of the New York Herald.

Washington, July 10.

"Carefully as the secret has been guarded by those interested, it is well known throughout the South that a very large number of Slaves have been landed, chiefly on the Florida coast, within the past twelve months.—*A very distinguished Democratic Senator informed me within the last week, that his estimate of the number of cargoes of "Savages" that had been successsully transported into the interior of the country since May 1858 was between Sixty and Seventy.* He added that the boast had been semi-confidentially made to him, six weeks ago, by an individual interested, that twelve Slave vessels, whose names were unknown to him, would discharge their living freight upon our shores within ninety days. Supposing each vessel to contain, deducting loss by death, 250 blacks, *the late increase of Slave population of the South by importation from the coast of Africa must have been over* 15,000. Startling as this fact appears, I have not ventured to communicate it to you until fully persuaded that it cannot be contradicted; or, if gainsayed, that its truth may within a short period be demonstrated."

This is the emanation of no "Black Republican" journal, nor is it got up simply to "injure the Democracy." The *Herald* is an organ of the Administration, and its Washington correspondents assume to stand in high favor at Court. The facts are given as simple items of news, and are unquestionably well-founded. Similar facts have been made public by others; and there is as little doubt of their authenticity as there is of the equally important fact, that the Democratic party has become the mere tool of the Slaveholders of the Union.—*Albany Journal.*

Loss of Life by Lightning.

Correspondence of the Detroit Free Press.

Clarkston, Oakland Co., July 14, 1859.

The house of Moses Stiff, about three miles north of this places was struck by lighting during the storm to-day, and two of his children, aged six and ten years, killed. Another child was prostrated, but recovered. The mother was up stairs at the moment and heard the children fall. The house was not burned. Two hogs, in a pen near the house, were killed. J. B.

Important Decision—The Ohio Black Law Declared Unconstitutional.—The Court of Common Pleas for Cuyahoga County, through Judge Foote, this morning, delivered an important decision. At the last election, Freeman H. Morris, tailor, of this city, and having about one-fourth negro blood in his veins, presented himself at the First Ward voting place, and was barred from voting on account of his negro blood. Action was brought against the judges of election, Sanborn, Christian and Garrett, for illegally rejecting the vote. They pleaded in defence the recent action of the Legislature, rejecting the vote of any person having negro blood in his veins.

The case was made up and submitted to the Court. This morning, Judge Foote declared for the plaintiff, declaring the "Black Law" to be unconstitutional. The Court held that under the old Constitution of Ohio all persons having more than half white blood was declared to be legally white. The new Constitution merely mentioned "white persons," without defining what constituted a white person, consequently the definition of a white person contained in the old Constitution remained in force, and any law declaring a person having more than half white blood to be a negro must of necessity be unconstitutional.—*Cleveland Herald.*

A Great 100 Mile Foot Race.—A great feat of pedestrianism was undertaken at the Race Course on the Troy road, between Albany and Troy on Wednesday, between Albert Smith, of Tonawanda, and Henry Bennett, of Cattaraugus, well known Indian runners. Neither of the combatants for the prizes—which were the honor of championship and $100 in money—succeeded in accomplishing the task. Bennett succumbed to fatigue and the exhausting heat of the weather, after making his twenty-eighth mile. Smith continued on his course until he completed his first fifty miles, which he accomplished in seven hours and twenty-four seconds, averaging seven miles per hour.—He then took dinner.

On the 57th mile, says the Albany *Express*, Smith showed great signs of fatigue, and at intervals sat down to rest upon the track.—This accounts for the length of time occupied in that mile. He was then furnished a lemonade, which appeared to resuscitate him, and he again started off with more apparent ease than before.

The shoes which Smith wore were a pair of light morocco slippers, and on reaching the 61st mile, his feet had become so sore that he was almost unable to walk, and was therefore compelled to give up a task which has never been accomplished by any person in the arena of pedestrianism.

The time occupied by Smith in the 61 miles was *nine hours twenty-nine minutes and thirty-nine seconds*, the quickest, for the distance, on record.

Imminent Peril of a Bostonian and Family.—Mr. E. N. Perkins of Boston, wife and three other ladies, were in Perugia, at the time of the sack of that unfortunate village, on June 15th, by the Swiss mercenaries of the Papal government. Massacres and brutal excesses of the worst description were perpetrated. Neither age or sex were spared. A letter from Rome, June 25, to the London Post, says:

"An American gentleman, Mr. E. N. Perkins, of Boston, who arrived at Perugia from Rome on the 15th, with Mrs. Perkins and three other ladies, had a very narrow escape from the hands of the brutal soldiery, who burst into the Hotel de France, where he was staying, shot the master of the hotel and the waiter, and most probably would have murdered the travelers also, had they not been concealed by the mother of the unfortunate hotel keeper in a dark recess, leading by a secret door out of one of their bedrooms. In this suffocating hiding place they all remained for fourteen hours, and when they at last ventured out they found that the whole hotel had been gutted, furniture and property destroyed or carried off, and that Mr. Perkin's luggage, containing money and valuable effects of many kinds to the amount of nearly $3,000, had likewise become the prey of these freebooters in uniform. The United States Minister in Rome, Mr. Stockton, has received an exact account of the occurrence from the sufferers, and is making energetic representations to the government in order to obtain a suitable reparation."

"Time is Money"—Of course it is, or else how could you spend it?

Mons. Blondin's Exploits on the Tight Rope.

Correspondence of the Detroit Free Press.

Suspension Bridge, July 14, 1859.

I left Windsor last Wednesday afternoon, at 1:20, with a train containing about one hundred and fifty passengers, in the charge of Conductor Willey. On leaving, the train was about twenty minutes late, and there was nothing occurred between Windsor and Suspension Bridge to retard the progress of the train, which is a very rare occurrence on railroads, so that we arrived on time to a second. Now for Mons. Blondin, the most daring man of his day. From six o'clock on Thursday morning until four in the afternoon, there was a perfect avalanche of people arriving from all directions by regular and special trains, to witness what had been announced as the last and most intrepid feat. At 3 o'clock P. M., the crowd began to assemble, to witness Blondin's performance on the rope; and at 5 o'clock every available tree, stump, ledge or spot where a view of the rope could be obtained, on either side of the river, was occupied by anxious gazers, for a half a mile above and below the rope. A great number of stands had also been erected on each bank of the river, which were crowded to excess. At 5 o'clock Blondin appeared on the rope, on the American side, amidst the cheers of the excited multitude. He started for Canada, *walking backwards*, having with him his balance pole, which is thirty feet long. He stopped when about one-third of the way out, and sat down to rest for a few moments, when he again started.

After arriving mid-way across, he stopped again, sat down, and signalled the little steamer *Maid of the Mist* which came directly under where he sat. Capt. Travis, the great pistol shot, was on board, according to an agreement; and Blondin held out his hat and allowed him to perforate it with a bullet from the deck of the vessel. He then lowered the hat, with an empty bottle, by a cord to the boat, and again proceeded onward. When within about three hundred feet of the Canada shore he laid down upon the rope perfectly straight, with his balance pole across his breast. After a moment's rest he rose and started again, arriving safely on the Canada shore, having been twenty-seven minutes going across. On arriving he was received with deafening cheers, and every person who could get to him grasped his hand in token of their delight and satisfaction at his performance. He then got into a carriage and drove among the crowd, making a collection and thankfully receiving what any person chose to donate. He thanked them for whatever they gave, saying, "Me can't speak good Enlish; me's very much obliged. I'se go back in a few minit wit one wheels-barrow; den all's right."

In about twenty minutes he appeared from his dressing-room, tumbling about like a monkey, dressed in the character of Jocko, the Brazilian ape. He soon started with a wheelbarrow for the American side, the barrow being fastened by the handles to a belt which he wore around his waist, carrying his balance-pole in his hands. The wheel of the barrow had a flange on each side to prevent its coming off the rope. He stopped three times on his journey to rest, but could not sit down, owing to the barrow being so fastened to his waist. The time occupied in going back was thirty-one minutes.

There was present, to witness the exhibition, a very fine fire company from Philadelphia, accompanied by a fine brass band. The stories that have been published concerning the rope, are incorrect. The rope is two inches in diameter, and the guys are eighteen feet apart throughout the entire length of the rope, there being no space of a hundred and twenty feet midway as has been reported.—The rope is seventy-two feet lower in the centre than at each end. The Announcement of the Great Battle at Paris—The Popular Enthusiasm—A Paris Illumination.

Paris, Tuesday, June 28, 1859.

Another great battle has been fought; the name of *Solferino* will be entwined with "Magenta" in the laurel-wreath Napoleon III. is winding round is brow, and the Muse of History, in telling the story, will stamp it as one of the bloodiest and best contested battles of modern times.

My brother "Malakoff" is at the seat of war and in a private note informs me he was present at the battle, and has sent the *Times* full particulars; therefore it merely remains to me in his absence to note for your readers what has been passing in this great centre of the world. On the morning of Saturday, June 25, there took place an early drill in the Champ de Mars, of the troops remaining near Paris. While they were engaged in mimic war, the thunder of the cannon of the invalides announced to Paris and the world that their comrades on the field of real strife had won another and a glorious victory; they halt, listen, and shouts of *Vive l'Empereur* break the air, as each successive roar of artillery dies away upon the ear. The cannon cease, their story is told. Paris is like a grave, the people seem to hold their breath; for as they well know, it is only on great occasions those cannon speak; and they know, too, that, for the friends at home the roar of these cannon is, alas, too often the death-knell of many a brave beloved one.

Ten thousand times ten thousand hearts stand still, the pallid cheek, the falling tear tell the heart's silent agony.

The news! the news! What is it? When, where? What losses, what successes? Who is killed? you read in every eye. Here comes the Extra *Moniteur*. The Emperor telegraphs to the Empress, "The Austrians are beaten, all their positions taken, many prisoners, many cannon and flags, our loss inconsiderable." Good news and glorious, but the "loss *inconsiderable*." Go to the hundred thousand women, pale with anxiety and fear, and read the story! No matter how many be killed, to many, alas, it is death, despair—ruin. The day rolls on, and the national pride in a great is victory seen. Flags, tri-colors, French and Sardinian, float from every window and balcony; the Empress and Princess Clotilde drive through the streets amid tumultuous cries of *Vive l'Empereur.—Vive l'Imperatrice. Vive le Roi de Sardaigne. Vive la Princesse Clotilde. Vive la France. Vive l'Italie.* The leaven works—pale faces flush, and hope drowns fear; a general and spontaneous illumination is resolved upon; the crowd rush to the venders of colored lanterns in such numbers that the police have to be called upon to keep them in order.—One vender sold that afternoon of lanterns 40,000 francs worth, and he is one among the many.

Night throws her mantle over the city, and Paris is drunk with joy; all the public buildings are in a blaze of gas; all private dwellings with ornamental and various colored lanterns; the police relax their vigilance, and the noise of the fire crackers and the whizzing of Chinese wheels, remind us of the Fourth of July at home. All Paris was in the streets until two o'clock in the morning.

Among other curious proceedings was that of a party of *gamins*, ("b'hoys,") each carrying a lantern, and preceded by music, who announced to the people "that as they had no front windows, they illuminated themselves like glow worms."

It were vain to attempt to describe the illumination; it was spontaneous, and one of the best that has ever been seen in Paris, and, to those who know Paris, that is sufficient; for those who do not, I am sorry, but they must hope to see one. The same thing was repeated on Sunday evening, and in many places improved on. All was apparent joy, and yet anxiety was in every house—anxiety not yet allayed.

A writer in the Leavenworth *Times*, relates following anecdote of Mr. Greeley:

"When the party had mounted their animals in front of the camp of Dr. Casto, the President of the mining district, for the purpose of treading the back track, Horace found it, however, more easy to bestride his long-eared charger than to induce him to move onward. The whip and spur proved unequal to the task. Every forcible expedient being exhausted, the rider finally resorted to 'moral persuasion.' Mellow words of kindness and encouragement flowed from his lips; but they availed nothing. The obstinacy of the animal finally seemed to excite the admonitor, and in a half-praying, half-threatening tone, he exclaimed: '*Now mule for God's sake don't be a mule!*' This vigorous appeal was properly responded to. The mule moved."

General Cass has assumed a double-headed eagle for his political crest: one head applies to the American citizenship of naturalized aliens, and the other to the military and conscript service which they owe to their mother country.—*Louisville Journal.*

☞ Fever and Ague.—A Case of Eight Months' Standing Cured by Boerhave's Holland Bitters.—Michael Kelly, No. 117 Seventh, near Grant st., Pittsburgh, says:

"Last July, while running on the river, on a cotton-boat plying between Natchez and New Orleans, I was taken with Fever and Ague. For eight long moths I suffered with this dreadful disease. The greater part of this time I was unable to work, and spent at least fifty dollars for different medicines, but found no permanent relief. Three weeks ago one of my friends insisted upon my trying Berhave's Holland Bitters, saying that a cure was guaranteed. After taking it for one week, I must say I was a sound man. I have been at work now for two weeks, and have had no return of the Chills or Fever, whatever."

I certify that the above statement is true.

THE PURE WINES OF HUNGARY.

State Assayer's Office, 32 Somerset St., Boston, July 1st, 1858.

Messrs. Freund & Grossinger—

Gentlemen:—I received from you eight samples of Red and White Hungarian Wines, which, at your request, I have submitted to chemical analysis. I send you the details with this letter.

From my researches it appears that these Wines are pure, and they contain nothing but the products of the grape. I can confidently recommend them to the public as good and pure wines, and as not so likely to become sour as the light wines of France. I exposed my samples forty-eight hours to the air, in a warm room, without any souring having taken place.

The general character of the red Hungarian Wines is that of the Red Burgundy of France, and the White Wines (with the exception of the sweet or dessert wine) are between Hock and Sauterne; but somewhat stronger than either of these.

I am satisfied that, when known to the public, the Hungarian Wines will be greatly in favor, and that they will be much sought for.

Respectfully, your obedient servant,
CHARLES T. JACKSON, M. D.,
je23h451d3m State Assayer.

BABY BUNN.

Winsome baby Bunn!
Brighter than the stars that rise
In the dusky evening skies,
Browner than the robin's wing,
Clearer than a woodland spring,
Are the eyes of baby Bunn—
Winsome baby Bunn!

Smile, mother, smile!
Thinking softly all the while
Of a tender, blissful day,
When the dark eyes, so like these
Of the baby on your knees,
Stole your girlish heart away.
Oh! the eyes of baby Bunn!
Rarest mischief they will do,
When once old enough to steal
What their father's stole from you!
Smile, mother, smile!

Winsome baby Bunn!
Milk-white lilies half unrolled,
Set in calyces of gold,
Cannot match his forehead fair,
With its rings of yellow hair!
Scarlet berry cleft in twain
By a wedge of pearly grain,
Is the mouth of baby Bunn!
Winsome baby Bunn!

Weep, mother, weep!
For the little one asleep
With his head against your breast!
Never in the coming years,
Though he seeks for it with tears,
Will he find so sweet a rest.
Oh, the brow of baby Bunn!
Oh, the scarlet mouth of Bunn!
One must wear its crown of thorns,
Drink its cup of gall must one!
Though the trembling lips shall shrink,
White with anguish as they drink,
And the temple sweat with pain
Drops of blood like purple rain:
Weep, mother, weep!

Winsome, little baby Bunn!
Not the sea shell's palest tinge,
Not the daisy's rose-white fringe,
Not the softest, faintest glow
Of the sunset on the snow,
Is more beautiful and sweet
Than the wee pink hands and feet
Of the little baby Bunn—
Winsome baby Bunn!

Pray, mother, pray!
Feet like these may lose the way,
Wandering blindly from the right,
Pray, and sometimes will your prayers
Be to him like golden stairs
Built through darkness into light.
Oh! the dimpled feet of Bunn!
In their silken stockings dressed!
Oh! the dainty hands of Bunn!
Hid like rose-leaves in your breast!
These will grasp at jewels rare,
But to find them empty air;
These shall falter many a day,
Bruised and bleeding by the way,
Ere they reach the land of rest!
Pray, mother, pray!

The Empire of Austria.

There is a period in the lives of Empires, as of individuals, when the evil they have done rises up in judgment against them, when the voice of self-delusion and flattery is heard no longer, and when the occasions they have missed and the opportunities they have misused scourge them with a vengeance only the more bitter that it has been long delayed.—Such are the times that have come at last upon the great and powerful nation of Austria. She not only did much evil, but the evil which she did was done upon system and according to precedent. She had, as every human being or aggregate of human beings has, clearly laid before her the different elements of power and success, the spiritual and the material, the ennobling and the degrading, the progressive and the obstructive, and she deliberately chose the latter.—By no means negligent of the welfare of the great mass of her subjects, she has contrived to disgust and alienate the feelings of all who rose in the least above the tamest mediocrity, who thought, or felt, or reasoned, or acted for themselves.

Physical force was her idol, and she fell down and worshipped it in the dust. By the coarsest methods, by beating with the stick one class of offenders, by imprisoning another, and by shooting or hanging a third, Austria contrived to establish throughout her wide dominions the superiority of the baser over the nobler parts of man. She has no literature; she has no aspirations; imagination is banished from her dominions under the penalties of fine, bastinado or imprisonment. This brutality has in it a certain kind of vitality. It holds wonderfully together. It has even extorted admiration and become a sort of idol to those who despair of the destinies of humanity, and believe that men are sheep to be fleeced; or cattle to be driven by the stronger. But we are just beginning to see the real moral and meaning of all this, and it is too instructive to be passed over in silence.

Austria trusted in her army. It was composed to be sure of different races, all more or less discontented with the Imperial Government, all more or less hostile to each other; but it was excellently drilled, it was provided with competent officers, it had experience of all the ordinary manœuvres of war, and it was surrounded wherever it went by a most elaborate system of fortification. The time of trial has arrived, and how has this enormous machine, to support which the empire has been depopulated and the finances ruined, borne the strain and tension of actual hostilities? It has been shattered to pieces—not for want of courage and endurance, or technical acquaintance with military evolutions, but because this vast mass was directed by intelligence of a low order, and was deficient in that activity, self-reliance, and power of spontaneous action which distinguish the French soldier. Mind and matter have met together and matter has been shattered in the conflict. Brute force has been no match for intelligent valor, and the most obstinate endurance has yielded before the onslaught of an enemy who knows what victory is, and how she is to be wooed and won.

But the defeat of her military system is by no means all the evil with which Austria is threatened. The successors of Joseph II. have concluded a degrading Concordat with Rome; they have taken to their heart and counsels that strange and fatal race of men who seem destined ever to pursue an end which they are never allowed to reach. In her intellectual degradation Austria has prostrated herself before the Order of Jesus.—The throne of the young Emperor is surrounded by that ominous band, the sure precursors of the ruin of thrones and the downfall of monarchies. Louis XIV. took them to his heart, and prosperity left him never to return. James II. and Charles X. lost under their advice the kingdoms of their ancestors, and surrounded by them Francis Joseph seems to be drifting towards a similar consummation. Even at a moment like the present there is hardly a loyal race in the Empire that is not disgusted at ecclesiastical tyranny, and the misfortunes of the State bring no relaxation to the miseries of the Protestant or Jew.

Every province of Austria in the meanwhile groans under the confiscation of its rights and the forfeiture of its privileges.—Hungary, loyal and aristocratic in its aspirations, cannot forget that ten years ago it had a Constitution as ancient as our own, and that it has been degraded from the rank of a Constitutional Monarchy to that of a subjugated Province. Bohemia is plunged in sullen and dangerous discontent; and Tyrol—faithful Tyrol—so often the last and surest refuge of the House of Austria—Tyrol, the mother of Hofer and Speckbacher, is for the first time in history alienated and discontented, and draws back in the hour of trial from the service of a Government which it no longer loves or respects. Matters are coming rapidly to a crisis, while the Austrian Government, with absurd tenacity, adopts the ruinous logic of pride and folly, and will not yield to the just demands of her subjects, "for fear she should be thought to 'do so upon compulsion.'"

Now, it is assuredly not the interest of England that Austria should be blotted out from the map of Europe, or that the void which this disappearance would create should be filled by the elements of confusion and revolution. By interest, which is stronger than sympathy, our welfare is to a certain extent bound up in hers, and therefore we ought to have credit for sincerity when we urge upon the young Emperor that the time for a complete change of system ought no longer to be deferred. The army cannot be remodelled in the presence of an active and enterprising enemy, but, at any rate, the course of domestic discontent and disunion may be arrested. A few well-timed concessions might render Hungary the strength instead of the weakness of the Empire, might enable Austria to laugh to scorn the threats of Kossuth or Klapka, and turn doubtful auxilliaries into sincere and valiant friends. The same may be said of Bohemia, the same may be said of the Tyrol.

The old system of iron repression has become an impossibility. Austria may still, if she pleases, be the head of a number of nationalities governed each according to its ancient policy and traditions, or she may lose all in the futile attempt to preserve her absolute, centralizing, and degrading system.—Happy for her if her EMPEROR draws from present circumstances a warning which his predecessors have refused to understand. To remain what she is is no longer in Austria's power; she must either put from her the gross abuses of her system, or make up her mind to perish with them. The real attachment of her provinces north of the Alps might well indemnify her for the loss of the Lombardo-Venetian Kingdom; but the attachment is only to be conciliated by a complete change of system. The losses and reverses of the Italian campaign would be a blessing instead of a misfortune, were they to prevail upon Austria even now to adopt a progressive and liberal system, and, convinced by the teaching of adversity to cast from her that traditional policy which twice already in the present century has led her to the verge of ruin.—*London Times.*

DIAPERS, &c.

CONSUMERS OF RICHARDSON'S Linens, and those desirous of obtaining the Genuine Goods, should see that the goods they purchase are sealed with the full name of the firm, RICHARDSON, SONS & OWDEN, as a guarantee of the soundness and durability of the Goods.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season, and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine goods, will not readily abandon a business so profitable, while purchasers can be imposed upon with goods of a worthless character.

SOYER'S SULTANA SAUCE.

For Hot or Cold Dishes of all Kinds.

THIS MOST DELICIOUS and appetising Sauce was invented by the renowned "SOYER," on his return from the Crimea, and since his decease is manufactured by CROSSE & BLACKWELL, London, from the original recipe. The manufacturers simply ask for it a trial, convinced that it must add to the already large consumption, and that it will prove itself unequaled, either as a stimulant to the appetite or an aid to digestion.

Opinions of the London Press

"We recommend our correspondent to try MONSIEUR SOYER'S new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish recipe; its flavor is excellent, and it affords considerable aid in cases of SLOW AND WEAK DIGESTION.—*The Lancet.*

"The Sultana's Sauce is savory, piquant, and spicy; a happy combination of flavors and essences worthy of the delicate taste of a Sultana, the genius of a Soyer, and the universal patronage of a discriminating Public."—*Observer.*

"A concentration of all the piquant resources of Turkey and Russia."—*United Service Gazette.*

"As a titillater of the appetite this Sauce stands alone. It is a most valuable adjunct to Fish, Flesh, or Fowl, and should be placed on every dinner table."—*Atlas.*

"The Sultana sauce is a most delicious zest."—*Morn Chronicle.*

"Winchester's Preparation"

OF THE

PURE HYPOPHOSPHITES

OF LIME, SODA AND POTASH.

Prepared from the

Formula of Dr. J. Francis Churchill,

For the treatment of

CONSUMPTION.

"WHAT I AM ANXIOUS FOR, IS that the Hypophosphites should be brought *as speedily as possible*, INTO UNIVERSAL USE, AS I KNOW THAT THEY WILL PROVE NOT ONLY AS SURE A REMEDY IN CONSUMPTION AS QUININE IN INTERMITTENT FEVER, BUT ALSO AS EFFECTUAL A PRESERVATIVE AS VACCINATION IN SMALL-POX.

"The action of the Hypophosphite, with iron for the base, WOULD PROBABLY BE DANGEROUS, and *certainly could not be repeated as often as necessary.*"—[From Dr. Churchill's Letters.

BOERHAVE'S

HOLLAND BITTERS.

JE MAINTIENDRAI

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,

DISEASE OF THE KIDNEYS,

LIVER COMPLAINT,

WEAKNESS OF ANY KIND,

FEVER AND AGUE,

And the various affections consequent upon a disordered

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Apetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Its reputation at home produced its introduction here, the demand commencing with those of the Fatherland scattered over the face of this mighty country, many of whom brought with them and handed down the tradition of its value. It is now offered to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recomended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in affect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and infusing new health and vigor in the system.

READ CAREFULLY! The genuine highly concentrated Boerhave's Holland Bitters is put up in half-pint bottles only, and retailed at ONE DOLLAR per bottle. The great demand for this truly wonderful Medicine has induced many imitations, which the public should guard against purchasing.

Beware of imposition! See that our name is on the label of every bottle before you buy.

THE LIVER INVIGORATOR!

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE and Liver medicines now before the public, that acts as a Cathartic, easier, milder and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it, and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

LIVER INVIGORATOR

The LIVER is one of the principal regulators of the human body; and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the LIVER—having ceased to do its duty. For the diseases of that organ one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with LIVER COMPLAINT, in any of its forms, has but to try a bottle, and conviction is certain.

These gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease, effecting a radical cure.

BILIOUS ATTACKS are cured, AND WHAT IS BETTER, PREVENTED, by the occasional use of the LIVER INVIGORATOR.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently, and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

☞ One dose of two teaspoonfuls will always relieve SICK HEADACHE.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves CHOLIC, while

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

☞ Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

☞ One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite, and makes food digest well.

One dose often repeated cures CHRONIC DIARRHOEA in its worst forms, while SUMMER and BOWEL complaints yield almost to the first dose.

One or two doses cures attacks caused by WORMS in Children; there is no surer, safer, or speedier remedy in the world, as it never fails.

☞ A few bottles cures DROPSY, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

ALL WHO USE IT ARE GIVING THEIR UNANIMOUS TESTIMONY IN ITS FAVOR.

☞ MIX WATER IN THE MOUTH WITH THE INVIGORATOR, AND SWALLOW BOTH TOGETHER.

THE LIVER INVIGORATOR

IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures almost too great to believe. It cures as if by magic, even the first dose giving benefit, and seldom more than one bottle is required to cure any kind of LIVER complaint, from the worst Jaundice or Dyspepsia to a common Headache, all of which are the result of a DISEASED LIVER.

PRICE ONE DOLLAR PER BOTTLE.

THE SENTINEL.

COMMERCIAL.

MONDAY, July 18th, 1859.

Money Matters, &c.

Money matters are quiet, and rates steady as last noted. Exchange continues plenty at 1¼ ⅌ cent on New York, with a tendency towards a decline which, it is to be hoped will soon take place. Gold is buying and selling at the same rate as Eastern exchange. Money, though not plenty, is in sufficient supply to meet the legitimate wants of trade. Bank discounts 10 ⅌ cent. Brokers' rates 1 to 2 ⅌ cent a month.

THE CLEARING HOUSE SYSTEM.—There is a growing feeling in favor of the establishment of a Clearing House system at all the commercial centres of the west. The central redemption plan adopted recently by the banks of this city, has resulted favorably to the business community, enabling our merchants to buy their exchange at from ¼ to ½ ⅌ cent below the ruling rate at Chicago, besides improving the reputation of Wisconsin currency abroad. It has also had a tendency to contract the circulation of wild-cat banks, and if permanently continued our State will not probably be as prolific of these institutions in the future as it has been in the past. In alluding to this subject the Cincinnati *Gazette* very properly remarks:

Banks that are gotten up and conducted upon the idea that they are to be banks of circulation merely, and that it is their province to throw every possible obstacle in the way to prevent the return of their paper, after it has performed its functions, are getting to be regarded as an imposition, and it may be said, we think, that their days are almost numbered. Such institutions will very soon find it impossible to stem the current of public opinion that is setting against them. There is a strong feeling in favor of the establishment of a Clearing House system, at all the leading commercial centers in the west, and it is evident that the movement looking to this end will be carried forward until the proposed plan will be put into operation. Already, Ohio and Indiana Banks have expressed themselves in favor of this plan. Most of the Kentucky Banks are also known to favor it. In Chicago the measure is being advocated, and in St. Louis, also, the question is being agitated. Under this plan, all banks of issue, whether located at accessible or inaccessible points, would be placed upon an equal footing as regards the matter of redemption; and such banks as would refuse to take care of their notes at their respective centers, would be discredited. They would thus be forced to maintain their credit or withdraw their circulation from the field covered by the Clearing Houses. The introduction of this system would put an end to the practice of locating banks at inaccessible points—it would put an end to those proceedings which have disgraced the Missouri banks—it would secure convertible paper money, and drive out the trash that is now diluting the currency of the west.

NEW YORK BANK STATEMENT.—The statement of the New York Banks for the week ending yesterday, as reported by telegraph, shows the following changes:

Decrease in loans	$ 1,01,735
Increase in specie	762,051
Decrease in circulation	341,627

To-day buyers did not seem inclined to come up to Saturday's closing figures for No. 1 wheat, generally limiting their offers to 65c; but holders not acceding, the business done was confined to sales of a couple of car loads of No. 1 spring at 70 to 72c, about the same amount of good No. 2 at 60 to 62c, and a few hundred bushels extra club at 85c. The market closed dull and heavy on account of the unfavorable tone of commercial reports brought by the *Indian*. A small lot of choice spring extra flour sold at $4,12½. Good country brands were offered on 'Change at $4 without finding a purchaser. A couple of lots of oats sold at 35c in store, and 36c free on board. Shelled corn was offered at 75c, at which figure a few hundred bushels sold. Potatoes suffered another heavy decline, selling at a range of 25 to 40c for common to good samples. Highwines declined 1c. Other articles generally unchanged.

CHICAGO, SATURDAY, JULY 16th.—Receipts: 1,034 bbls flour, 4,925 bus wheat, 86,804 bus corn, 6,525 bus oats. Shipments: 300 bbls flour, 40,587 bus corn.

The heaviness in the wheat market continues, and we have to note a still further decline of 2@3c on spring grades. About 60,000 bushels of all grades changed hands at $1,14@1,16 for new No. 1 red on track and delivered; $1,04 for old No. 1 red in store; 85c for No. 1 spring; 61@64c for standard spring, and 58c for No. 2 spring—closing dull, with buyers of standard in round lots at 63½c. Nothing doing in flour. The buoyancy in corn was not so great to-day; but the market was active at a decline of 1@2c opening rather quiet, but gradually stiffening towards the close. About 86,000 bus of all grades, changed hands at 67@68½ for No. 1; 64@65 for No. 2, and 60c for selected—all in store. At the close there was a good demand at 65c, but no sellers below 69c. Oats are neglected and very dull. New rye 75c. Wool firm. A lot of 5,500 lbs extra full blood Saxony was sold to-day at 46c. Buyers, however, are generally very cautious till they hear the result of the New England trade sale of woolen goods. Hides in better supply but the market continues firm. Old potatoes scarcely saleable.

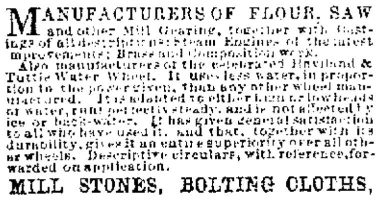
IMPORTANT NOTICE —TO— MILLWRIGHTS AND OWNERS.



The Excelsior Water Wheel Co.

ARE MANUFACTURING A NEW KIND of Water Wheel, patented 11th May, and 14th December, 1858, by J. H. Fairchild, of Vermont. It involves an entirely new principle of obtaining power, and of controlling the water, by which we obtain a greater maximum power than is afforded by any other wheel now in use. Some of the advantages of this wheel are:—

1st. We obtain the ENTIRE WEIGHT of the water, and have the advantage of the full head and fall, from water to water.

2d. It surpasses all other wheels in velocity and power.

3d. It is perfectly under the control of the workmen, either when used to drive a large or small amount of machinery, as the strength of the wheel is not diminished by reducing its motion, since it depends upon the WEIGHT of the column of water below the wheel, which always remains about the same.

4th. It occupies less space than any other wheel—is placed inside the flume, near the SURFACE of the water, and is never affected by frost.

5th. The wheel is very durable, being made of iron, and can be put in any place and attached to Saw Mills, Grist Mills, and machinery of all kinds, with LESS expense than any other wheel. The velocity of the wheel is such that the expense of gearing up is avoided for nearly all purposes.

Together with the advantages above stated, we are ready to warrant the Wheel to possess a power equal to the following figures, for each foot fall of water:

[illegible] inch wheel	52.00	horse-power.
10½	[illegible]	"
12	[illegible]	"
13½	1.31.120	"
15	[illegible]	"
16½	1.37.120	"
18	2.35.100	"
19	2.65.100	"
20	[illegible]	"
21	[illegible]	"
22	[illegible]	"
24	[illegible]	"
26	[illegible]	"
28	[illegible]	"
30	[illegible]	"

Wheels of the above sizes make from 120 to 16 revolutions per minute. When sold, are complete with gate, pully and shaft, so that the purchaser has only to place it in the flume, which can be done with less expense than any other wheel.

The Company have competent workmen, who will put them in any place in workmanlike manner, at reasonable rates. The Wheels can be afforded at a less price than any other wheels now in use.

W. B. STURGES, Sec'y, Troy, N. Y.

CERTIFICATES.

MIDDLETOWN, Ct., Dec. 1, 1858.

Dear Sir—In answer to your letter asking my opinion of the Fairchild Patent Water Wheel that you put into my factory for me, I take great pleasure in stating that it has exceeded my expectation. I took out a Breast Wheel 16 feet in diameter, by 8 feet Buckets, and replaced it with one of "Fairchild's Patent" 18 inch Wheels, and it gives more power, with no greater amount of water, and the motion is as steady as that of a steam engine. It has also the advantage of being very cheap and durable.

It operates under a 9 feet head and fall, and carries with equal regularity and steadiness a greater or less amount of machinery, "such as is necessary for the manufacturing of fire arms," whereas an increase of machinery upon my old Wheels would materially lessen the speed.

It is without doubt the best Wheel I have ever used, and my experience in Water Wheels extends over a period of 25 years. Any one interested in Water Wheels will be convinced of its superiority (however skeptical) if he will take the trouble of calling at my factory and see its performance.

I am, yours, respectfully,
EDWARD SAVAGE.

Mr. Savage writes me again under date of Jan. 6th 1859. The Wheel continues to perform entirely well, and I am more and more pleased with it. It has not caused us a moment's delay since you were here.

SHELDON, Franklin Co., Vt., June 29, 1858.

Dear Sir—I have one of Mr. Fairchild's wheels in operation at my Machine Shop, which I can recommend to the public with perfect confidence, as possessing all the advantages which are claimed for it. The wheel which I am using is twelve inches in diameter. It gives more power, and runs more steadily than the twelve feet Breast Wheel, which I have heretofore used, requiring less water under the same head and fall.

H. CARLISLE.

Many other testimonials from heavy eastern manufactories may be seen at my office, where the public are invited to call and examine this wheel, and where they will at all times be kept on hand to supply the demand. An 18 INCH wheel is now running the Planing Mill and other Machinery necessary for the manufacture of Sash, Doors and Blinds at the manufactory of M. Y. King, Esq., (State Dam) Joliet, Ill., where any and all are invited to call and examine it under practical test, and a motion of 700 revolutions per minute. For further particulars please address

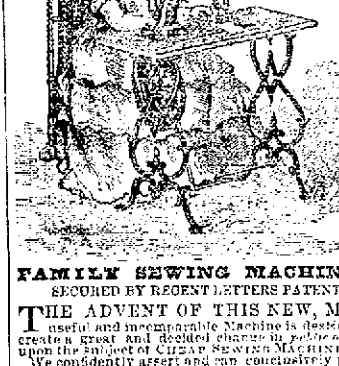
MOORE'S

Thirty Dollar, Double Lock Stitch,



FAMILY SEWING MACHINE!!

SECURED BY RECENT LETTERS PATENT.

THE ADVENT OF THIS NEW, MOST useful and incomparable Machine is destined to create a great and decided change in *public opinion* upon the subject of CHEAP SEWING MACHINES.

We confidently assert and can conclusively prove, by a *practical demonstration*, that this Machine embraces in its construction the best combination of SCIENTIFIC PRINCIPLES to be found in any Sewing Machine now before the public, *regardless of price!* With an eye quick to detect the deficiences and imperfections of other Machines, Mr. Moore has sought to remedy them all; and we feel assured a critical examination of this beautiful piece of machinery, will at once establish it as the *only truly desirable cheap* Machine in the country, and *fully equal to any high priced* Machine now sold. It sews directly from two spools, (as bought at the store, without re-winding,) one above the Machine, and one underneath, and makes the *strongest, most elastic* and *durable* stitch, made either by hand or machinery. *It cannot be ripped,* though the cloth is *cut at every third stitch.* The stitch possesses the same elasticity on the seam as on the goods, thereby making it particularly applicable for articles that require washing and ironing. The machinery for feeding the cloth is unlike all others, and is without doubt, the best constructed.

The breaking of needles, a common and expensive fault with most other Machines, is entirely remedied in this; with proper care, one needle will last for months. The entire Machine is simple in construction, and made in every respect perfect and durable. Unlike other Machines, there is no danger of *soiling* the article sewed by *oil*, as none is used on top of the Machine. It is also made large enough for every description of work, there being a clear space nine inches in length, by four in height, between the needle and end of the Machine. In beauty of design and mechanical construction, it has no equal in the country; all the movements being positive, and the friction light, there is not the slightest probability of its getting out of order. It stands entirely upon its *own merits*, and needs no better reference than its own good works to convince all who see it, that it is the most valuable and labor-saving invention of the age.

It is our intention to sell a small portion of the territory by States or Counties upon a suitable and fair basis. As a *sure and* highly remunerative investment it has no equal. Extensive arrangements have been made for the manufacture of *these Machines*, and the *large profits to owners of territory*, commends the enterprise to the attention of all who wish to *make money rapidly on a small capital*. We will send a sample Machine, securely boxed by express or otherwise, to any address upon receipt of Thirty Dollars. *Every Machine is warranted.* Send for a descriptive circular giving full particulars.
